# FLEXIBILITY in the classroom

For over 25 years, Finale has remained the world standard for music notation software, in part because of its extensive flexibility to create anything you can imagine. Music educators save time with Finale's customizable Music Education Worksheets, the Exercise Wizard, and education-specific fonts that help produce personalized curriculum quickly.

In the classroom, Finale is an extra set of hands dedicated to saving you time. Best of all, this assistant has instant access to great music education resources, no matter what subject you're teaching.

## Piano Teachers

Finale Academic includes a wide range of music education tools for all your piano students. Resources include more than 1,000 ready-made worksheets, flash cards, jazz improvisation tools, ear-training aids, and pieces of repertoire, from pre-readers to advanced levels. Need to create new content? Finale Academic makes it simple. Click or type the notes in, or play your music in directly via any MIDI keyboard. Regardless of its origin, all worksheets and music are easily edited in Finale Academic, whether you're applying fingerings and pedal markings, transposing, or re-harmonizing.

## Band and Orchestra Directors

Create SmartMusic accompaniments and assessment files for your students to learn their music before rehearsal. Instantly generate exercises for your entire ensemble—without entering a note—using Finale Academic's exclusive Exercise Wizard. Finale Academic saves you time with a wide variety of powerful tools from instant range-checking, to Linked Parts that ensure your score and parts are always in sync.

## Choir Directors

The days of unproductive rehearsal time are over. Make rehearsals more meaningful by creating practice audio files so everyone can practice their part at home. You can even share Finale Academic files that students can play in free software, including Finale NotePad. Having difficulty assessing the various ranges of your singers? Create SmartMusic vocal assessment music and transpose to suit a singer's range. Even lyrics and instructions are not an issue. Easily write multiple verses of text/lyrics to guide your singers. If you're in need of rehearsal or performance pieces, explore public domain music online via MIDI and Finale Academic files.

Upgrade Finale! The latest release (version 25) now includes: 64-bit support, transposed note entry, improved human playback, large time signatures, and more!

# YOUR ASSISTANT is here

Finale PrintMusic is music notation software designed for educators, worship directors, performing musicians, composers, and arrangers who don't require the most advanced features of Finale.

PrintMusic is easy to use and fun to learn. Quickly create orchestrations of up to 24 staves, extract parts, hear your music play back, and print beautiful sheet music.

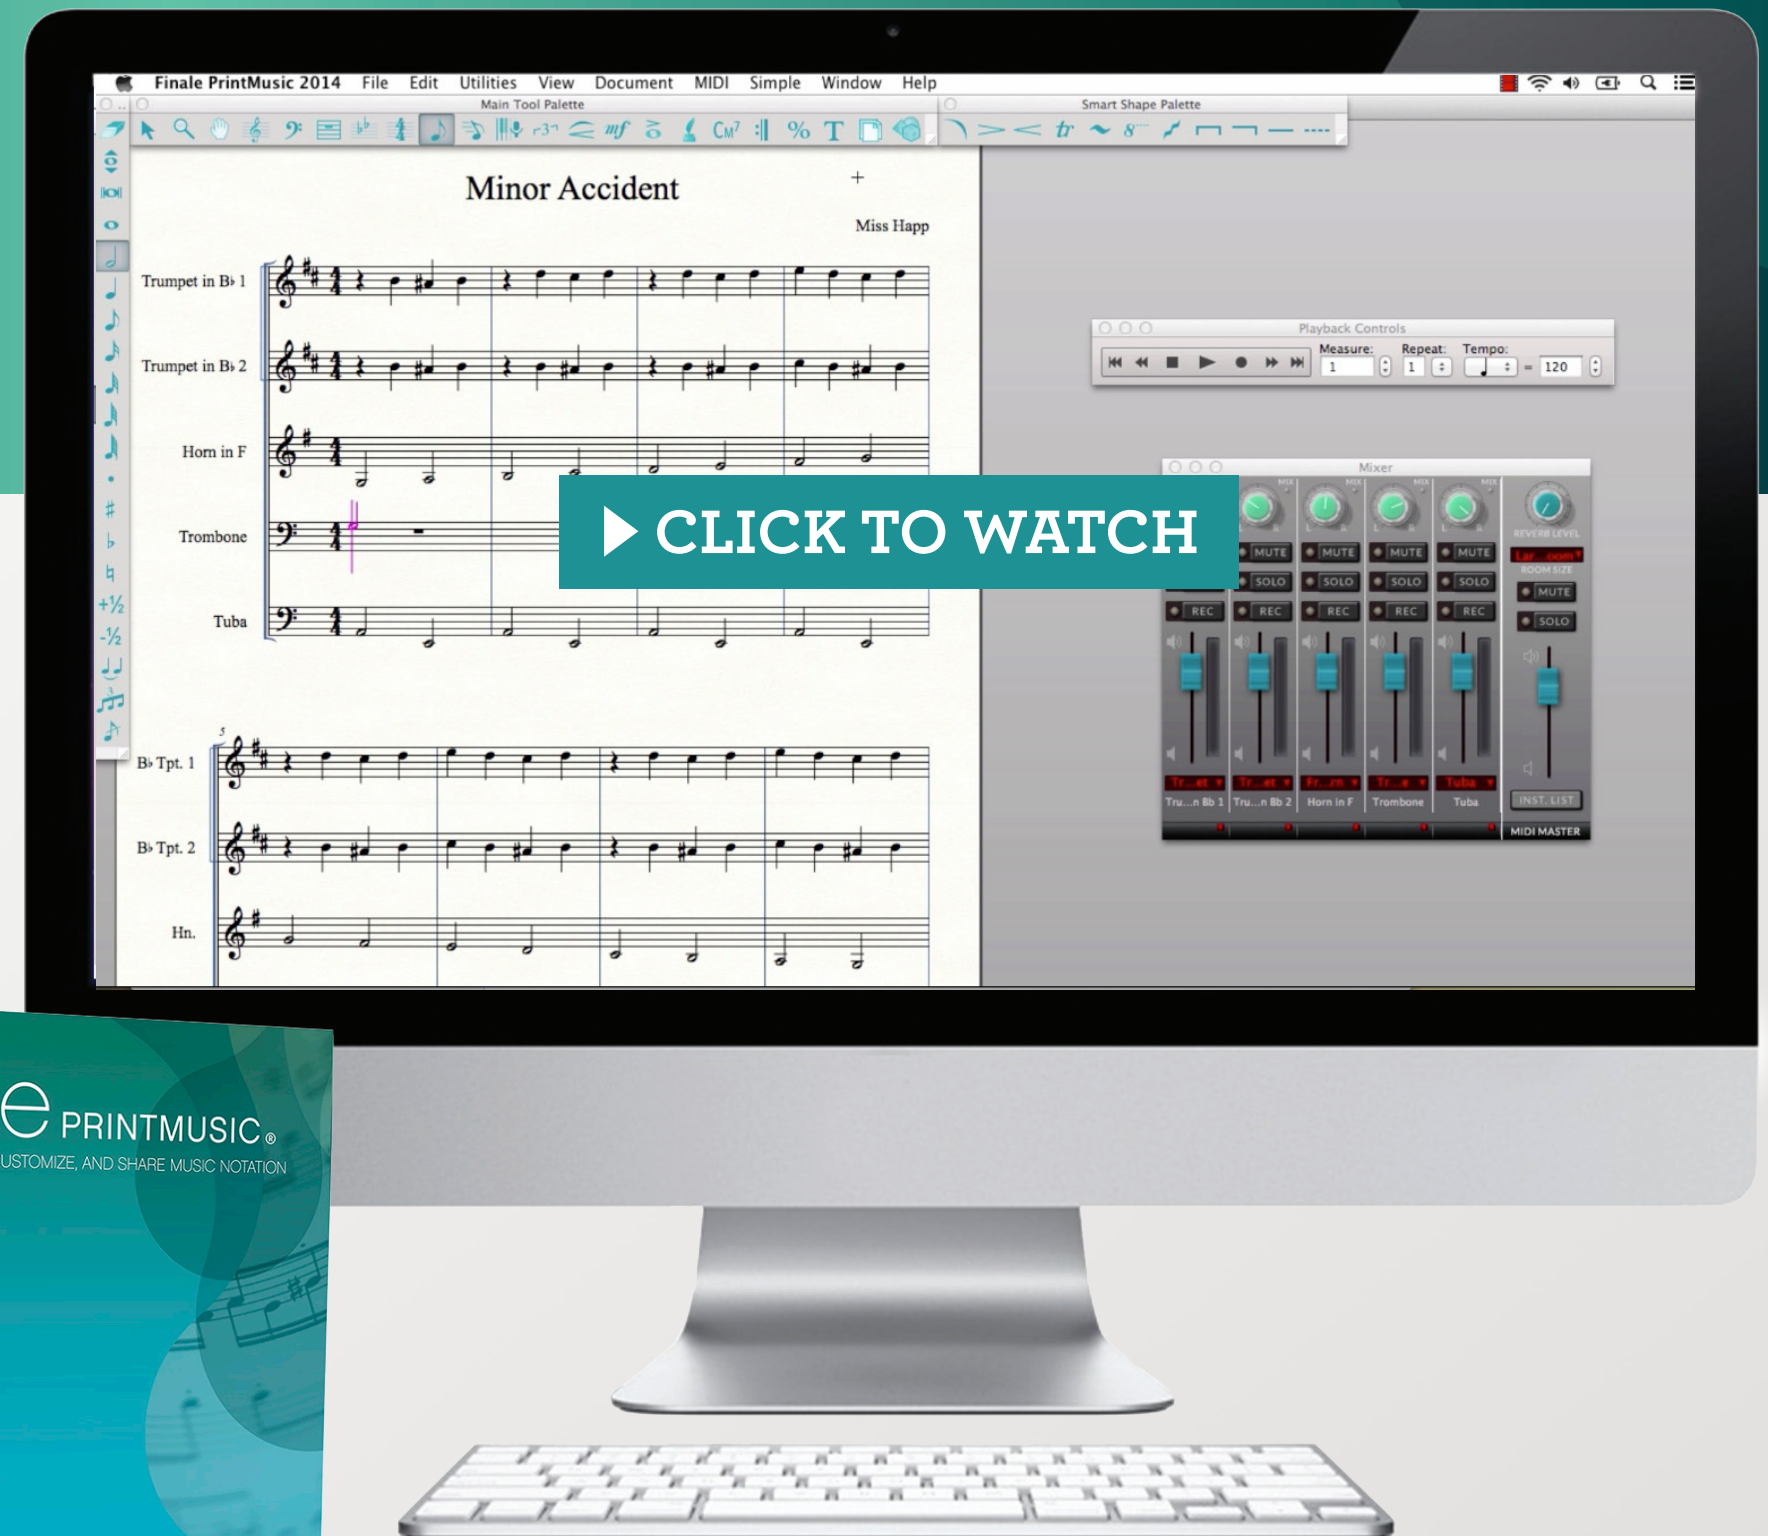

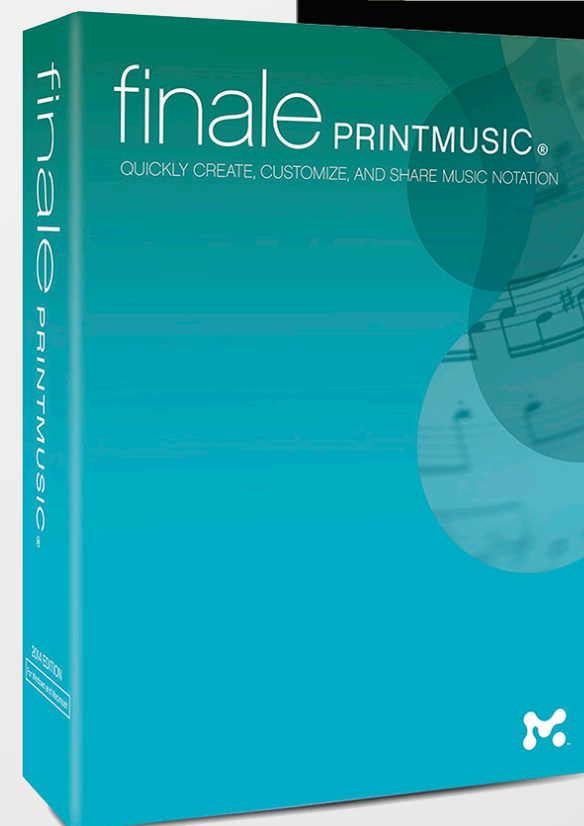

## Educational Tools

PrintMusic boasts more than 30 ready-made, customizable Music Education Worksheets. Designed for K-12 students, these educator-approved worksheets help teach basic elements of music. Subjects covered include clefs, scales, key signatures, circle of fifths, and more.

Classroom Repertoire examples are also included, plus more than 100 Music Education Flashcards designed to print double-sided (with the answers on the back) for classroom use or self-quizzing. Because they're provided as PrintMusic files it's easy to edit them to your specific needs and print them out, or distribute them via email to be printed by students with the free Finale NotePad app.

## Accomplish More

With PrintMusic you can print beautiful sheet music. You can also email files that anyone can print and play with the free downloadable Finale NotePad. Working with someone using different software? You can even share MIDI and MusicXML™ files.

# DESIGNED for song writers

Finale SongWriter is the fast, easy way to create and print professional-quality sheet music.

Enter notes with your mouse, computer keyboard, MIDI device, or import MIDI and/or MusicXML™ files. Create great-sounding and professional-looking sheet music that plays back; then share your music in more ways than ever before.

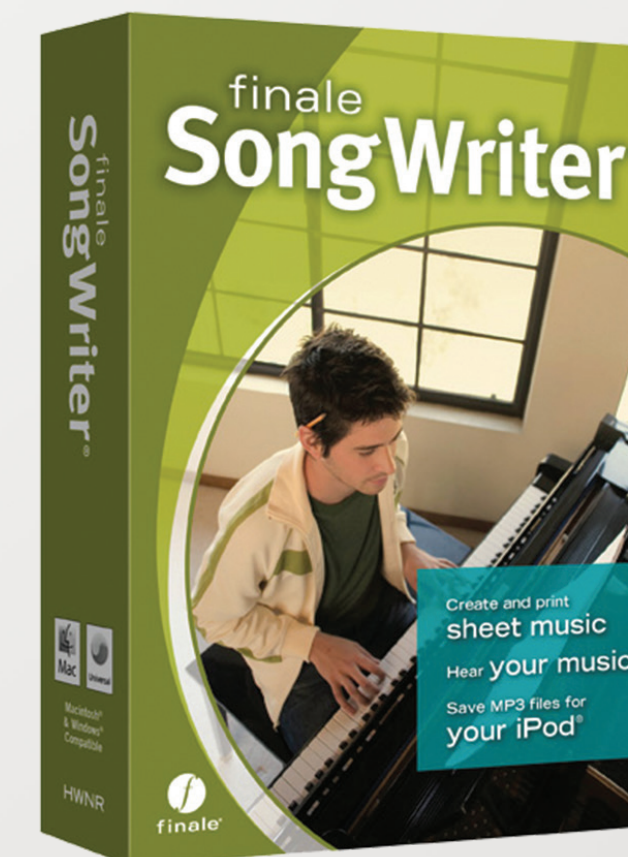

## If you're still using a pencil...

You know that changing the key or adding an intro means starting over. When your music is in SongWriter it's easy to change keys, add measures, and move things around any way your creative impulses inspire you.

## Sheet music that plays back

With SongWriter music notation software, you can listen to the results before the rehearsal. When you can hear what you've written, you can quickly refine your music to sound exactly the way you want.

SongWriter does the heavy lifting, like managing how each staff plays back and transposes, so you don't have to. Simply select the instruments you wish to write for and get started!

Transpose to any key and for any instrument

Print professional-looking scores of your compositions

Add chord symbols and fretboard diagrams

Create multiple lyric verses

Create up to 8 staves

Generate guitar and bass tablature automatically

Add dynamics, slurs, articulations, and more

Drum Grooves automate percussion notation

## SUPPORTING YOU and your students

---

As a music educator, you add to your legacy every day—making a lasting, positive impact in the lives of your students. Finale was created to support you every step of the way.
