55 Art Songs
Compiled & Ed. by Sigmund Spaeth & Carl O. Thompson

This collection can be used for unison choir or for soloists. Sigmund Spaeth, well known for his writings, lectures, and radio talks on music, best describes

the scope of the collection in the foreword: "This book is a cross section of the entire literature of Art Song. Every one of the 55 numbers is a classic of its kind and each is by a different composer, which in itself makes the collection unique." Also unique are Spaeth's singable translations of the German, French, Italian, and Russian songs.

GATEWAY SERIES

This series of coordinated manuals and anthologies helps students to move beyond diction to clear understanding and authentic style. Thomas Hampson says the series "not only achieves an excellent study of the tools for proper translation and diction, it goes much deeper and more importantly to the teaching of musical and poetic expression from the inner side of the language."

by Geoffrey G. Forward

Geoffrey G. Forward, acting coach and leading expert in American diction, clearly illustrates for the singer how to gain control by eliminating

vocal tension and poor diction and replacing it with clear pronunciation. Put the finishing touches on your singing not only with the excellent diction you will gain by using

this text, but also through the concepts of phrasing, identifying key words and singing with emotion, which are brought to life in this book. This 270-page book is an essential addition to the library of every singer, voice teacher and vocal coach.
