 preface by Eric Booth

Acclaimed by audiences and critics alike, *Music From the Inside Out* is a cinematic exploration of the magic and mystery of music through the stories, passion, and artistry of the 105 musicians of The Philadelphia Orchestra. Bring the excitement of the film into the classroom through a newly developed curriculum that engages students in reading, writing, listening and talking about all kinds of music and offers students the opportunity to compose their own works. The curriculum is intended for grades four and up and is constructed so that each lesson may be used individually or as part of the complete curriculum. The accompanying CD includes a wonderful selection of music examples for the classroom. The full-length movie and classroom posters are also available from Alfred, as well as a special supplemental teaching CD that includes excerpts not shown in the theatrical release.
